This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFATORY NOTE

The preparation of this Record has been a great pleasure because of the feeling that simple justice was being done those who served in the Civil War. It was intended to be a compilation of Official Records and is to a great degree, but some information, which seemed fairly reliable, could not be confirmed from official sources. Such records will be easily recognized by the absence of official dates.

The Collegiate and honor degrees are given as of last known records.

When officers stayed in the service after the war that fact is indicated.

Brevet appointments were made " for gallant and meritorious services," which is implied where not stated.

It is hoped that the publication of this highly creditable Civil War record of Union's Alumni will lead to the erection of a Permanent Memorial at the College.

" *Yea, let all good things await*
Him who cares not to be great
But as he saves or serves the state.
Not once or twice in our rough island-story
The path of duty was the way to glory."

THE TOWER SIGNAL STATION NEAR PETERSBURG, VA.

In charge of Thomas H. Fearey, Lieut. U. S. Signal Corps, during the winter of 1864-5 and until the fall of Petersburg on April 2, 1865.

It was 140 feet high to main platform and 147 feet to top of telescope house where men are standing. Lieut. Fearey stands to the left at foot of tower.

This was the most important signal station on the Petersburg battle line and was but 2,200 yards from the nearest Confederate battery.

Lieut. Fearey had three sergeants and thirteen men under him at this station.
